TGA Draftsman (m/f/d)

Beschreibung

To strengthen our creative team in Emsland, we are looking for full-time dedicated colleagues from mid-August 2020. You are enthusiastic about planning contemporary design concepts in the catering and hotel industry and think that your creativity can inspire many people? Then send us your application documents to the address below or apply directly here via our website and we will get back to you.

Zuständigkeiten / Hauptaufgaben

Participation in the standard-compliant planning of technical building equipment
Drawing diagram (floor plan, schematic, 3D pipe networks) of the TGA systems, especially in the trades heating, ventilation, plumbing
Development and presentation of function diagrams, 3D networks and detailed representations

Qualifikationen / Anforderungen

Completed training as a technical draftsman TGA, as a technical system planner or a comparable training
Professional experience in the field of TGA
Secure IT user knowledge in MS Office as well as CAD knowledge
Knowledge AutoCAD, Revit and Linear desirable
Self-employed as well as project- and goal-oriented working methods
Communicative, team-ready, practice-oriented

Leistungen der Anstellung

A secure workplace in a successful, future-oriented and dynamic company with exciting projects as well as plenty of room for your creativity. You work together with a highly motivated team in our new spacious offices and can rely on quick support and implementation through our flat hierarchies. Fair remuneration and opportunities for supported training are complemented by additional services such as free drinks, fresh fruit, employer-funded pension subsidies and staff discounts on the offer of the restaurant.
